Front Brick in Modern Architecture.

HE continued use in every possible condition from the early ages, and in all parts of the world, has most conclusively demonstrated that for construction of all kinds there is no substitute for any building material equal to that of brick.

In the great conflagrations of the past the hardest granite has crumbled like chalk, marble has been quickly reduced to lime, and iron has melted like so much wax. The only material that has conclusively stood the severe fire-test is brick. In other words, it has been proved that brick is the only true material for the construction of city buildings, and is alone able to endure the furnace heat of a great conflagration, such as have partially destroyed some of our largest cities, notably Boston and Chicago.

And so it has come to pass, that, while the consumption of brick has steadily grown, there has developed within the last decade a co-ordinate demand for bricks of superior make and of greater variety of shape and color, exclusively for use in fine fronts. This demand from comparatively a small beginning has increased to one of enormous proportions, creating what may almost be termed a new industry, widening the market and the opportunities of the brickmaker to an extent never before thought of.

The disposition everywhere observed to build better, with truer architectural design and purpose, and at the same time to employ a material, that, while fire-resisting and easily handled, shall enable the architect to lighten and beautify and add strength and variety to a street façade, has stimulated the manufacture of front, ornamental and moulded bricks to a more careful production of these now important building requisites. That a revolution has occurred in the selection of outside building materials is true. The newer parts of the metropolis, and the reconstructed portions of the old, bear unmistakable and gratifying testimony of this fact. From a sombre city of brownstone and dull, old-fashioned red brick, New York is rapidly being transformed into a brighter, more attractive and joyous-looking city, solely because of the extensive use of light-colored bricks. This is true, also, of other great cities.

The Sayre & Fisher Company, a name for more than forty years synonymous with the production of the best class of brick of whatever grade, was the first concern to recognize the new order of brick construction. With all the advantages inherent in long experience, in the ownership of magnificent and practically inexhaustible clay beds, eligibly situated at Sayreville, on the Raritan River, New Jersey, in the finest clay region in the United

States, together with an extensive and perfectly equipped plant, this company lost no time, when the demand came, in beginning the manufacture of the modern styles of front bricks. The splendid results of to-day, arrived at only after much experimenting and the exercise of unremitting vigilance, enable this company to surpass all previous efforts in the production of a variety of front brick unequaled in color and shape (standard, Roman and ornamental), in fineness of texture, in great strength, hardness and superiority of finish. This great output, in the manufacture of which the greatest care is maintained, all alkalies and other deleterious substances being carefully excluded, embraces, in light and dark, such colors as white, buff, red, gray, brown, old gold, mottled, and all the intermediate shades. These differences in color are not produced by artificial coloring matter, so apt to fade, but by the careful selection, intermixture and burning of the clays. These brick so produced, hard and fire-proof, and in their varying styles and patterns designed for all manner of use, have not their superior in this or any other country.

The fine architectural effects obtained through the employment of the Sayre & Fisher Company's brick, especially when used in combination, are strikingly illustrated in some of the largest and most costly structures erected in New York and other large cities of the United States. It is a pleasure for us to make this reference, as it is the best testimony as to the character of our products, and of the high esteem in which they are held by architects

everywhere.

We invite the attention of architects to our facilities for producing ornamental and moulded brick. These brick, usually so difficult of manufacture, and particularly so in carrying out the intricacies so frequent in architects' designs, we make with that accuracy and refinement of detail so essential to true artistic effect. Foliated blocks wrought in flower-work tracery and raised patterns of delicate finish, so well adapted for interior decoration, yet proof against all weather in outside work, are a specialty of our manufacture. We also make a feature of producing bricks for arches and plinths in perfect curves and of any desired shape or size.

Please note the many kind expressions of approval given us in the following testimonial letters from various parties who have used our front brick. Also on pages 106 and 108 from parties having used our enameled brick, and on pages 112 to 116 regarding our hard building brick.

PEABODY & STEARNS, ARCHITECTS,

Exchange Building, Boston, Mass.

BOSTON, July 2, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—We would say that the bricks furnished by you for several buildings under our charge, such as the Central Building, N. Y. city, in which we used about five hundred thousand of your old gold and buff brick; the house at the corner of Madison Ave. and 39th St., in No. 38 gray mottled; the two large houses at Lennox, Mass., for Mr. H. H. Cooke and Mr. John Sloane, in which we used about five hundred and fifty thousand buff brick, have been very satisfactory in color and quality.

Yours very truly,

PEABODY & STEARNS.

C. T. WILLS, 10 West 23d Street.

NEW YORK, November 27, 1890.

THE SAYRE & FISHER CO.

Gentlemen:—In the large Central Building, just completed, I used two hundred and sixty thousand of your old gold brick for front, and two hundred and fifty thousand of the buff brick for the courts in the rear, and although rapid progress was made in the erection of this building, am pleased to state that in all cases your brick were promptly delivered. They have also given good satisfaction to all parties interested.

Yours very truly,

CHAS. T. WILLS.

PEABODY & STEARNS, ARCHITECTS.

JOHN T. WILLIAMS, 54 and 56 Franklin Street.

NEW YORK, December 21, 1894.

THE SAYRE & FISHER CO.

Gentlemen .—It gives me much pleasure to state that I have used a large number of front brick of your manufacture with most satisfactory results; in fact, as you know, I rarely purchase brick from other manufacturers, as yours has proved so satisfactory and deliveries are made so promptly that I have no object in ordering elsewhere.

I shall require a large number the coming year for three buildings for which I am now preparing the plans. Wishing you a successful new year, I am,

Yours truly,

JOHN T. WILLIAMS.

O, B. POTTER, Potter Building, New York City.

THE SAYER & FISHER CO.

September 17, 1888.

Gendemen —I take great pleasure in stating to you the entire satisfaction which the buff faced brick furnished by you for my building next Grace Church have given me. In building that structure, owing to the scarcity of such brick in market. I ordered and used as you know, brick from several parties, among attern, the Haltimore brick and the brick made by the Porth Amboy Company. Your brock have stood much the best, and are much the bandsomest of any buff brick I have ever used, and discolor less than any other. I should not use or recommend any other buff brick that I know of in market as at all equal to yours.

Very respectfully yours,

O. B. POTTER.

OFFICE BUILDING,

BROADWAY, BROOME AND MERCER STS., NEW YORK.

BRUCE PRICE, ARCHITECT.

THE SEVER & PERSON CO.

January 14, 1895.

Genderen —I have used in various buildings of mine, during the last fifteen years, various kinds and qualities of your brick, and it gives me pleasure to say that in every instance they have come out in a first-class manner, and have been thoroughly enticlasters not only to me but to my clients.

Yours very truly,

BRUCE PRICE.

WILLIAM SCHICKEL & CO., ARCHITECTS, 246 Fifth Ave., N. Y. City.

THE SAYRE & FISHER CO.

New York, February 1, 1895.

Gentlemen:—It gives us pleasure to state that the front brick of your make, which we have used on several of our buildings, including the Scott & Bowne Building, have given entire satisfaction, and we highly recommend them.

Yours touly,

WM. SCHICKEL & CO.

JOHN PETTIT, Bennett Building, New York,

THE SAYRE & FISHER CO.

NEW YORK, August 8, 1894.

Gentlemen; —I beg to say that the brick of your manufacture I have used very large quantities in my various buildings in this city, and have found them not only satisfactory but their quality of retaining their color and durability over a great number of years especially commend them.

I am about building several tall office structures and I expect to order my supplies from you as formerly.

Yours very truly,

JOHN PETTIT.

WM. SCHICKEL, ARCHITECT.

MARC EIDLITZ & SON, BUILDERS,

SCOTT & BOWNE BUILDING,

ROSE AND PEARL STS., NEW YORK.

HENRY F. KILBURN, ARCHITECT,

January 17, 1895.

THE SATES & FIRST CO.

Gentlemen .—The light face brick furnished by you for the Colonial Club House, Sherman Square, New York, have proved to be very satisfactory in all respects.

Yours truly,

HENRY F. KILBURN.

ROBINSON & WALLACE, BUILDERS.

123 East 235 St., N. Y. City.

NEW YORK, April 25, 1892.

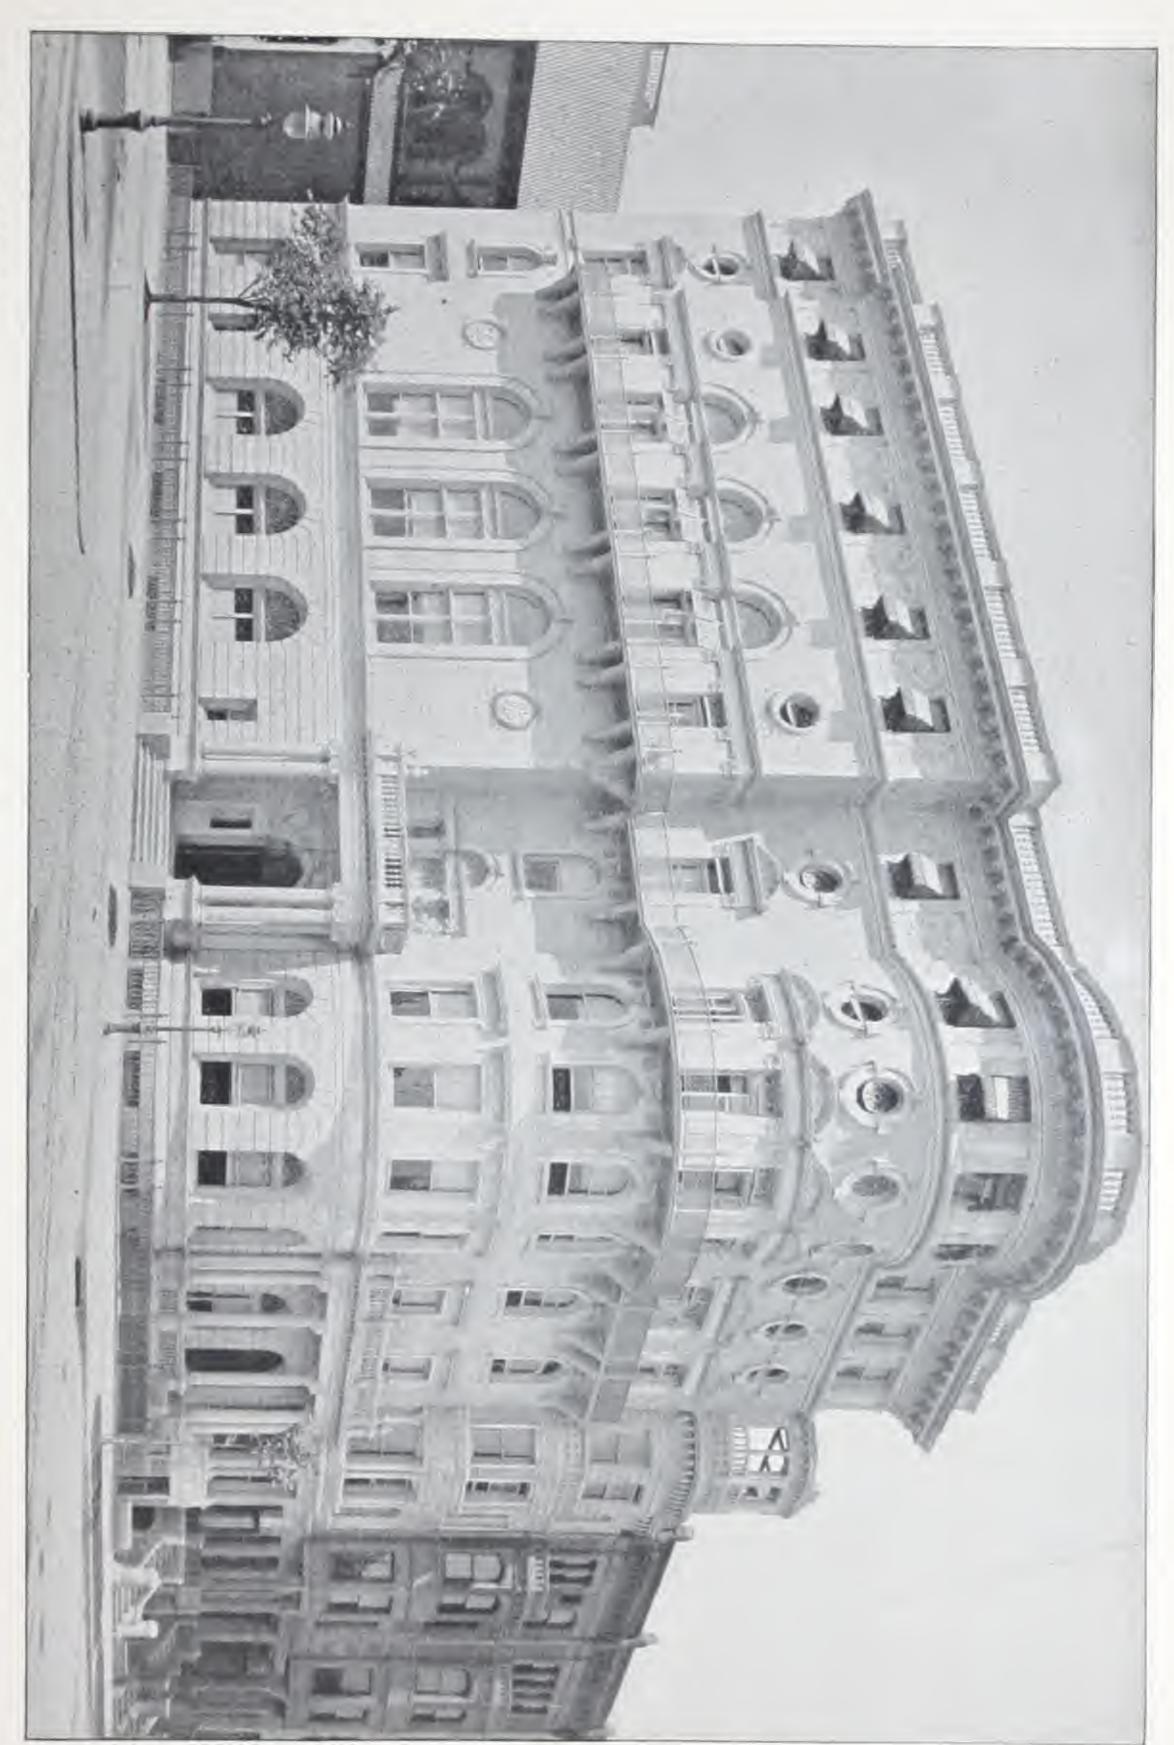

THE SATRE & FIRMER CO.

Generally .—In reference to the one bondred and fifty thousand white brick furnished by your company for St. Luke's Hospital, a 14th Street and Morning Side Park, would say that we found them first-class in all respects, and they have given good results. sim the brick used in the Colonial Club are very satisfactory.

Very truly yours,

ROBINSON & WALLACE.

COLONIAL CLUB,

SEVENTY-SECOND STREET AND BOULEVARD, NEW YORK.

ROBINSON & WALLACE, BUILDERS.

EDWARD L. ANGELL, ARCHITECT,

Downing Building, 108 Fulton St., N. Y. City.

NEW YORK, February 1, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—I have the pleasure to state that your front brick have been used in several of my buildings, including the large Amidon Apartment House, N. W. corner of 83d St. and Boulevard, N. Y. City; they retain their color and have been very satisfactory.

Yours truly,

EDWARD L. ANGELL.

THOMAS B. RUTAN, CONTRACTOR AND BUILDER, 4 and 5 Court Square.

BROOKLYN, N. Y., January 24, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—I have used your brick in large quantities and of all varieties, and have found them to be of excellent quality and to give entire satisfaction.

Yours truly,

THOS. B. RUTAN.

EDWARD L. ANGELL, ARCHITECT.

JOHN H. PARKER, BUILDER.

THE AMIDON APARTMENT HOUSE,

N. W. COR. SID ST. AND BOULEVARD, NEW YORK.

RALPH S. TOWNSEND, ARCHITECT,

1300 Broadway, New York.

New York, January 17, 1895.

THE SAYRE & FISHER CO.

Gentlemen :- I have used your brick in the Sherman Square Hotel and other buildings. They are a first-class article and have given satisfaction to all concerned.

Yours respectfully,

RALPH S. TOWNSEND.

MAHONEY & WATSON,

1215 Second Ave.

NEW YORK, September 21, 1891.

THE SAVRE & FISHER CO.

Gentlemen:—We used a large quantity of your light colored brick on the Sherman Square Hotel, which have given good satisfaction to all concerned; and although the work was carried forward rapidly, the deliveries were promptly made, and there were no delays.

Yours truly,

MAHONEY & WATSON.

RALPH S. TOWNSEND, ARCHITECT.

MAHONEY & WATSON, BUILDERS.

SHERMAN SQUARE HOTEL,

71ST ST. AND BOULEVARD, NEW YORK.

COPE & STEWARDSON, ARCHITECTS,

320 Walnut Street, Philadelphia, Pa.

PHILADELPHIA, July 14, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—In answer to your request for our opinion on the quality of your Pompeian face brick that you furnished for the Harrison Building at 10th and Market Streets, we can say that the result as to color is particularly satisfactory to us, and that the "special" arch brick made to conform in color to the general average of the rest of the face work, are all that could possibly be desired.

Yours truly,

COPE & STEWARDSON.

STEWART & STONEBACK, CONTRACTORS AND BUILDERS, 39 North Seventh Street, Philadelphia, Pa.

THE SAYRE & FISHER CO.

PHILADELPHIA, July 16, 1894.

Gentlemen:—We take pleasure in stating that the mottled brick you furnished us for the Harrison Building, northwest corner of 10th and Market Streets, are very satisfactory, and the arches which were rather out of the ordinary and difficult to mould, we must say were perfect, and we had no trouble whatever in laying up the same. It is also worthy of mention that your brick were delivered promptly, and there was not the slightest delay in our work caused by the delivery of your brick. Trusting that your concern in the future may be even more successful than in the past, we remain,

Yours very truly,

STEWART & STONEBACK.

COPE & STEWARDSON, ARCHITECTS.

STEWART & STONEBACK, BUILDERS.

HARRISON BUILDING,

N. W. CORNER TENTH AND MARKET STS., PHILADELPHIA, PA-

JOHN G. PRAGUE, ARCHITECTS, 49 Liberty Street, N. Y. City.

NEW YORE, January 12, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—I take great pleasure in recommending your front brick, having used them in several large buildings in this city (among which is the Hotel Brockholst, 83d Street and Columbus Ave.), with the most satisfactory results. I can certify as to their superior quality, durability, richness of color and prompt delivery of same.

I am now using them at 85th Street and Columbus Avenue, and am so well pleased that I propose using them in a large building to be erected in the spring, plans of which are now on my board.

Yours very truly,

JOHN G. PRAGUE.

MAHONEY & WATSON, 1215 Second Ave., New York.

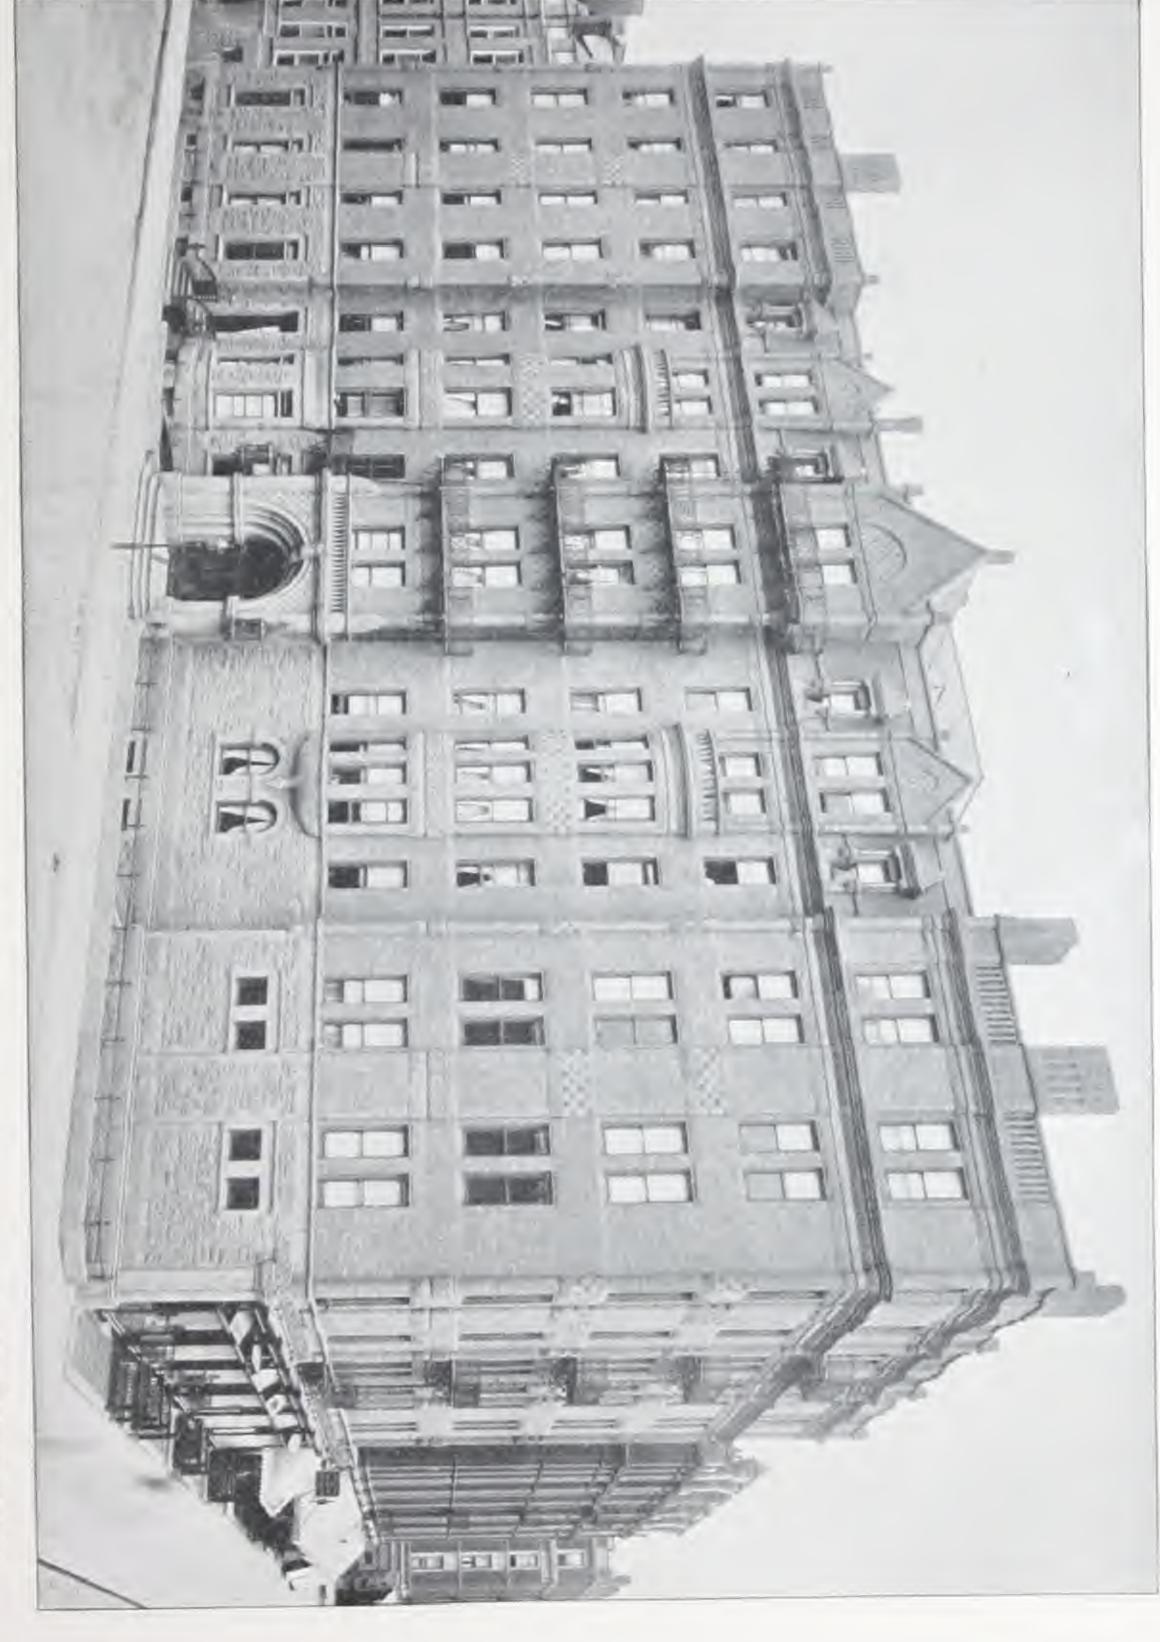

NEW YORK, April 19, 1890.

THE SAYRE & FISHER CO.

Gentlemen:—Am pleased to say in reference to your front brick furnished us for the Brockholst Apartment House, 85th Street and Columbus Ave., that they have been very satisfactory, and we very much appreciate prompt deliveries made during the entire work.

Yours truly,

MAHONEY & WATSON.

P. J. LAURITZEN, ARCHITECT,

16 East 23d Street, N. Y. City.

NEW YORK, Fanuary 11, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—Having used your brick for the past five or six years in the following buildings: the Manhattan Athletic Club of New York, the Smith & Gray Building, Nevins Street, Fulton Street and Flatbush Ave., Brooklyn; the Vigelius Building, Brooklyn; Jonas Long's Sons' Building, of Wilkesbarre, Pa., and Marks & Sons' Building, King and Calhoun Streets, Charleston, S. C., all in different colors, it gives me great pleasure to express my entire satisfaction with the quality and your prompt execution of order for same. The fact that in none of these buildings any discoloration has appeared, I consider of great value in your brick above all others in the market. I shall always be pleased to specify them whenever practicable.

Yours very respectfully,

P. J. LAURITZEN.

LUKE A. BURKE & Co., BUILDERS,
United Charities Building, 22d St. and 4th Ave., N. Y. City.

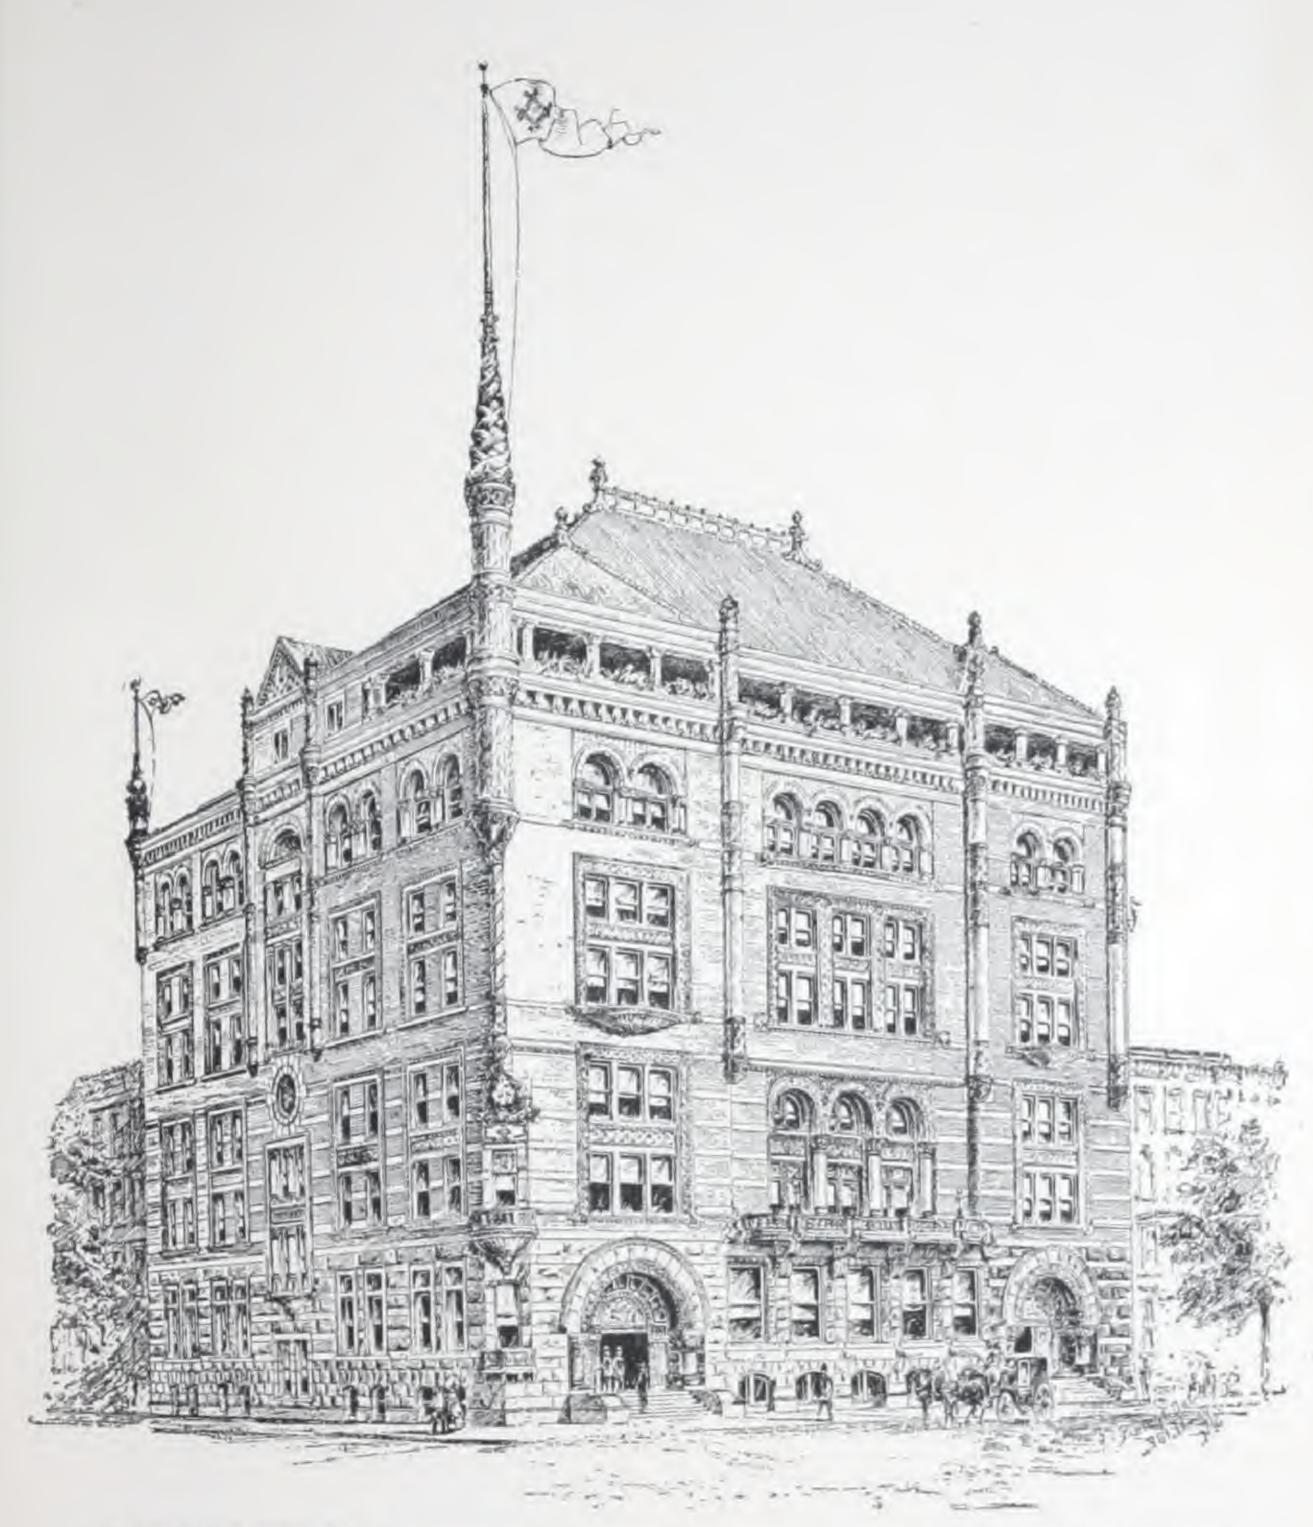

NEW YORK, February 1, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—It gives us pleasure to state that we consider the Sayre & Fisher front brick superior to any in this market. We have used large quantities of them with the greatest satisfaction to all concerned.

Very truly,

LUKE A. BURKE & CO.

P. J. LAURITZEN, ARCHITECT.

LUKE A SURKE & CO., BUILDERS.

MANHATTAN ATHLETIC CLUB,

W. S. PURDY, ARCHITECTS.

WCCABE BRDS, BUILDERS.

CLINTON HALL,

ASTOR PLACE AND 8TH ST., NEW YORK.

HENRY ANDERSON, ARCHITECT,

1180 Broadway, N. Y. City.

NEW YORK, February 2, 1895.

THE SAVER & FIRSTER CO.

Gentlemen —I have for a number of years had an opportunity to use the different clay products manufactured by your firm, and chiefly your pressed front brick. I am satisfied, after a close observation, to say that your front brick are superior to any now in the market, and for hardness and durability they have no equal. Your old gold pressed brick which I have used repeatedly, both in smaller as well as large buildings, I consider the best brick for this climate, the front surface being nearly non-absorbent, and guarantees a bright, clean surface at all times.

Respectfully yours.

HENRY ANDERSON.

THE SATER & FIRMER CO.

NEW YORK, February 2, 1895.

Genderson .- We cheerfully recommend your front brick, having used a large quantity in apartment house corner 57th St and Madison Ave. We are more than pleased with the result. We consider them superior to any in this market.

Yours very truly,

RIGGINS & KING

HENRY ANDERSON, ARCHITECT.

PARFITT BROS., ARCHITECTS,

26 Court Street, Brooklyn.

BROOKLYN, February 4, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—We take pleasure in testifying to what we consider superior results from using your front colored brick. Those in the Temple Israel, corner of Lafayette and Bedford Aves., of your old gold brick being particularly satisfactory.

Very truly yours.

PARFITT BROS.

ERNEST FLAGG, ARCHITECT.

54 Broad St., N. Y. City.

NEW YORK, April 26, 1894.

THE SAYRE & FISHER CO.

Gentlemen :—I take pleasure in confirming what Messrs. Robinson & Wallace have to say in reference to the one hundred and fifty thousand white brick furnished us by your company, that we found them first-class in all respects, and they have given good results.

Yours very truly,

ERNEST FLAGG.

GEORGE P. CHAPPELL,

24 State St., N. Y. City.

NEW YORK, February 4, 1895.

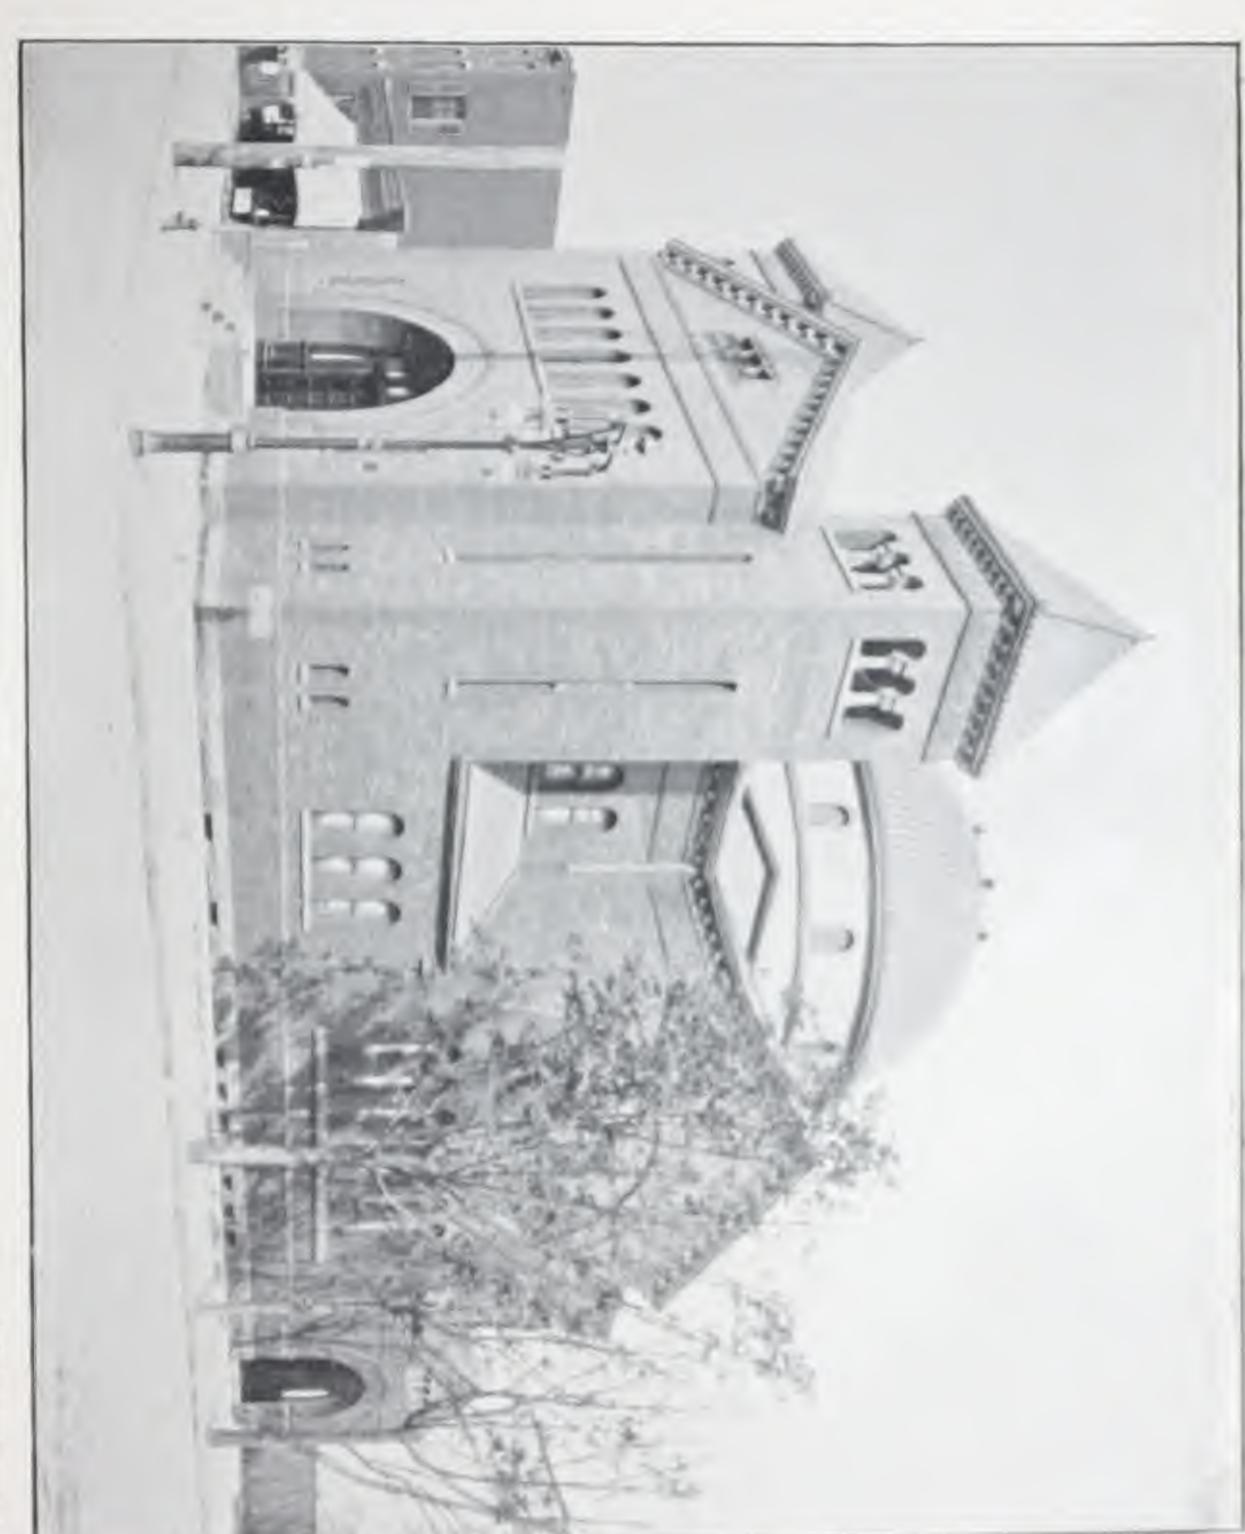

THE SAYRE & FISHER CO.

Gentlemen: - Having used your front brick during the past years, I gladly recommend them as a superior article, and consider them very excellent in every respect.

Very truly yours,

GEO. P. CHAPPELL.

TATAVATTE AND BESPOND AVES.

JONH HAUSER, ARCHITECT,

1441 Third Ave., N. Y. City.

New York, January 18, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—I hereby certify that the old gold brick furnished by you on the numerous private houses and apartment houses erected by me have given entire satisfaction, and I can cheerfully recommend them as to quality and durability, and in my estimation they have no equal.

Yours respectfully,

JOHN HAUSER.

A. VAN DOLSEN & SON, MASONS AND BUILDERS, 409 Broadway, New York City.

NEW YORK, September 17, 1888.

THE SAYRE & FISHER CO.

Genllemen:—Having used a great many buff brick made by your firm with perfect satisfaction, we write to say that the brick you are sending to our building at Oakdale, L. I., for Mr. W. K. Vanderbilt, are better than ever, and the finest we have ever laid. We congratulate you on your success, and will do all we can to introduce them in our work in future.

Yours truly,

A. VAN DOLSEN & SON.

R. L. DAUS, ARCHITECT,

26 Court Street, Brooklyn, New York.

BROOKLYN, N. Y., January 22, 1895.

THE SAYRE & FISHER CO.

Yours truly,

A. W. ROSS.

ROBERT DIXON, ARCHITECT, 219 Montague Street, Brooklyn, N. Y.

BROOKLYN, N. Y., January 1, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—I have used your front brick in a great number of buildings, and can state that I have always found them uniform in quality and most satisfactory as to color and durability. Deliveries have also been promptly made. I expect to use large quantities for large structures to be erected in the spring.

Very truly yours,

ROBERT DIXON.

FRANCIS R. ALLEN, ARCHITECT, 220 Devonshire St., Boston, Mass.

THE SAYRE & FISHER CO.

Boston, January 17, 1895.

Gentlemen:—It gives me pleasure to write in commendation of the bricks you have furnished me at various times. They have been remarkably uniform and true in shape, and the color good. I do not recall any instance where the light-colored bricks have changed color in the slightest. I have used them in Memorial and College buildings at Williams and Vassar and in many residences, and they have been uniformly satisfactory. I can only add that I hope to use more of them in the future.

I am yours truly,

FRANCIS R. ALLEN.

A+ W. ROSS ARCHITECT.

P. J. CARLIN & CO. BUILDERS.

BROOKLYN CITY R. R. BUILDING,

BROOKLYN, N. Y.

MEAD & TAFT, CONTRACTORS AND MANUFACTURERS, Cornwall, New York.

CORNWALL, N. Y., August 21, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—We have used your brick in various places and under different circumstances for fire-place work especially; and are pleased to say that in all cases they have given us entire satisfaction, as well as to the leading architects of New York and Boston, under whose direction the work has been performed.

Yours very truly,

MEAD & TAFT.

J. J. HOGAN, BUILDER,

Erie, Pa.

ERIE, PA., August 16, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—The mottled brick furnished by you for Mrs. C. H. Strong's residence in this city were very satisfactory in every respect, especially the special moulded ones. The promptness with which the brick were gotten out and delivered was very much appreciated by me.

Respectfully yours,

J. J. HOGAN.

ALBERT GEIGER, REAL ESTATE,

No. 131 Devonshire Street, Boston, Mass.

Boston, Mass., February 4, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—I take pleasure in stating that I have used a large number of your buff brick, and have found them satisfactory in every respect, particularly the last lot which you shipped for the eighteen houses which I am building on Hamilton Street.

Yours very truly,

ALBERT GEIGER.

TO A DANGERSON AND STREET

TAYLOR BUILDING,

BREADWAY, LAST STYRET AND YOU AVENUE, NEW YORK,

MADE RESIDENCE ASSESSMENT AND PARTY.

WINSLOW & WETHERELL, ARCHITECTS,

Phillips Building, 3 Hamilton Place.

BOSTON, MASS., February 4, 1895.

Gentlemen:—We have used your brick and found them to be entirely satisfactory in every way.

Yours truly,

WINSLOW & WETHERELL.

T. H. PRIOR & SON, BUILDERS AND CONTRACTORS.

Trenton, New Jersey.

TRENTON, N. J., August 17, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—We take great pleasure in stating that we have used a great many of your brick in the past fifteen years, and can cheerfully recommend not only your brick of different kinds, but also your promptness in filling orders, as well as a desire to give complete satisfaction in every respect.

The J. C. & Raymond Hoagland Houses, near the Rumson Road, Seabright, N. J., by Shepley, Rutan & Coolidge, Architects, of Boston, Mass., would give a good sample of your washed face brick, we having used in them considerably over one hundred thousand.

Very truly yours,

T. H. PRIOR & SON.

JAMES G. WALLACE, BUILDER, 236 East 50th Street.

NEW YORK, August 9, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—I have used your front brick of all sizes and shades in large quantities, and consider them the best in the market for strength, hardness, durability and color. Deliveries in all cases have been promptly made.

Yours truly,

JAMES G. WALLACE.

F H KIMBALL, ARCHITECT.

JAS. J. SPEARING & SON, BUILDERS.

FIFTH AVENUE THEATRE,

28TH ST., NEAR BROADWAY, NEW YORK.

WM. H. CADWELL, ARCHITECT,

Hadley's Building, 213 Main St.

New Britain, Conn., February 19, 1895.

THE SAYRE & FISHER Co., New York City.

Gentlemen:—I am highly pleased with the front brick furnished by you during the summer for the Hadley Block. The No. 14 mottled and rock face mottled brick have made the front of said building the handsomest in the city without question. I shall be pleased to recommend your brick at all times.

Yours respectfully,

WILLIAM H. CADWELL.

JAMES E. WARE, ARCHITECT, 487 and 489 Fifth Ave., N. Y.

New York, January 4, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—Your front pressed bricks have been used extensively by me for several years and have given entire satisfaction. They were used in the building at Nos. 169, 171, 173, 175 Hudson Street, for Mr. John H. Wray, and in part in the new Manhattan Storage Warehouse Building, 7th Avenue from 52d to 53d Streets. There is no better brick in the market for warehouses.

Yours truly,

JAMES E. WARE.

R. W. GIBSON, ARCHITECT, 18 Wall Street,

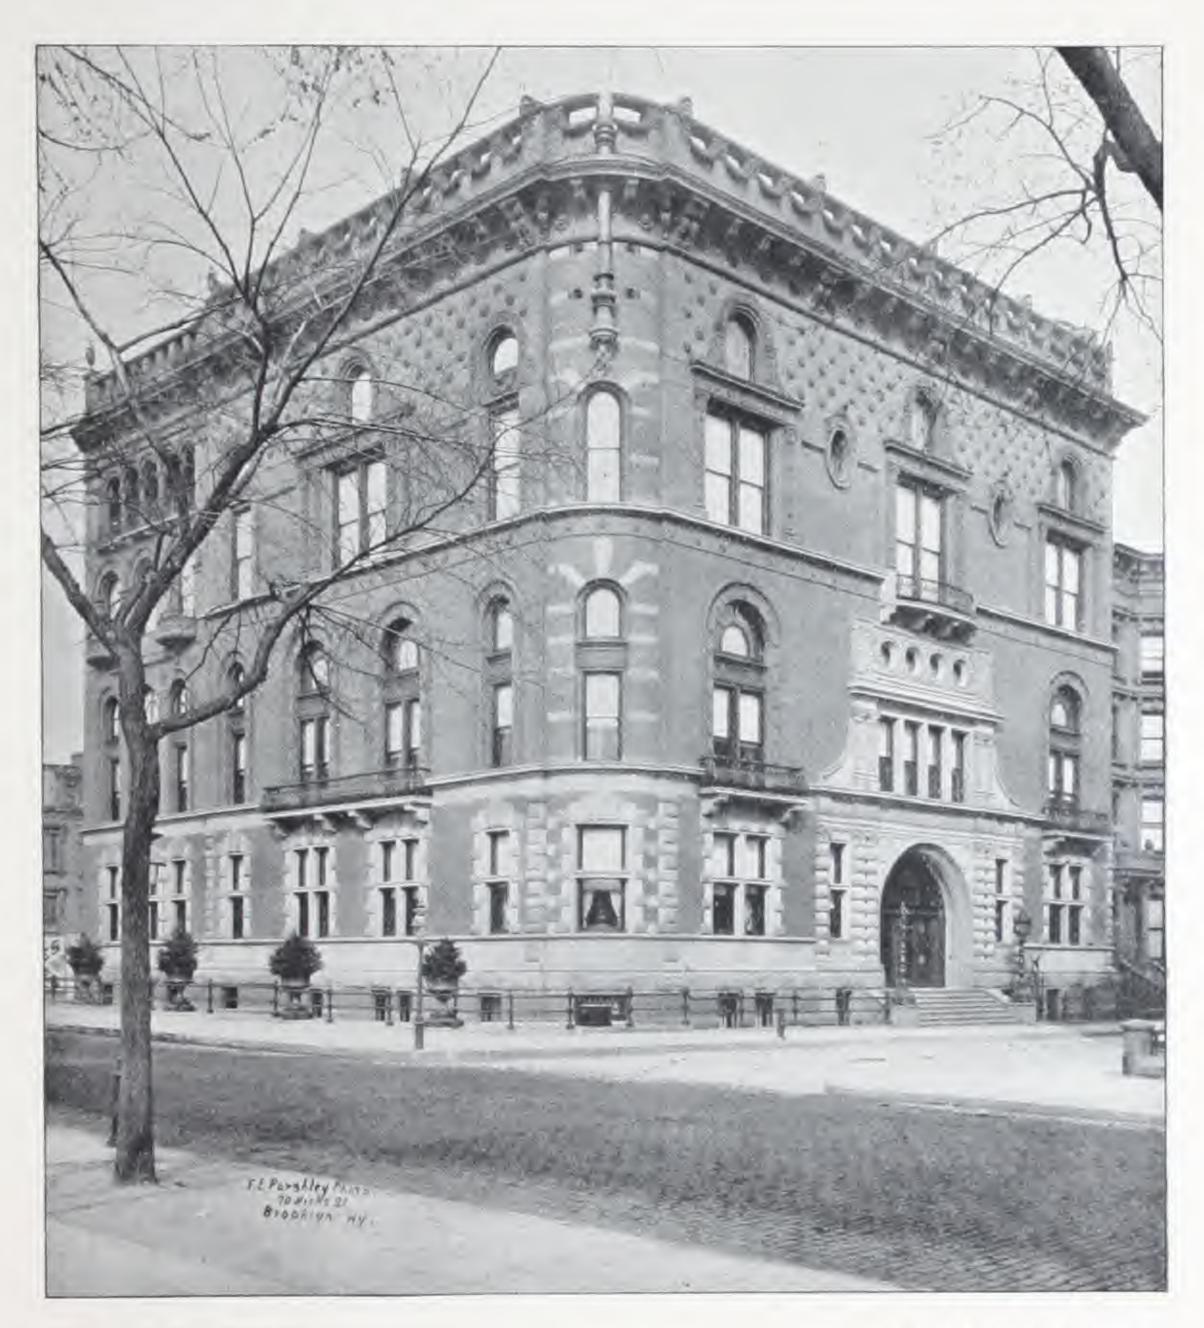

NEW YORK, February 5, 1895.

THE SAVRE & FISHER CO.

Gentlemen:—I am very pleased to say that the front bricks you have furnished for buildings under my direction have been highly satisfactory. For soundness, freedom from defects, and for promptness of delivery, your firm has done excellent work.

Yours truly,

R. W. GIBSON.

ALFRED ZUCKER, ARCHITECT.

VAN DOLSEN & SON, BUILDERS.

PROGRESS CLUB,

CORNER 63D ST. AND FIFTH AVE., NEW YORK.

S. SWANHELL, ABONITECT

ST. JAMES' ROMAN CATHOLIC CHURCH,

T. H. PRIOR & SON, THEMTON, N. J., BUILDERS.

RED HANK, N. J.

NEW YORK CITY.

85

fireplaces.

S we manufacture front brick in a great variety of colors, architects and others call for them frequently for fireplace work of every description, as they can readily select such brick as will harmonize with interior decorations or trim they desire.

"No part of the interior of a building offers so broad a field for the exercise of the taste and skill of the designer as the Open Fireplace and Chimney Piece. The friendly warmth of the fire renders it the immediate centre of attraction. Hence the Chimney Piece has for ages been honored and treated as the focus of interest; the keynote of the interior decoration of the apartment, and, so long as our physical natures remain the same, it is likely to continue to be so treated."-THE OPEN FIREPLACE.

We mention briefly a few of the prominent buildings and residences where our brick have been used for fireplace work :

BRICK FURNISHED FOR FIREPLACES.

LAKEWOOD, N. J.-The Lakewood Hotel. NEW YORK CITY .- The Century Club. 70,000 Mottled.

New Haven, Conn.-The Vanderbilt Dormitory, Yale College.

NEW HAVEN, CONN .- The Welsh Dormitory Building, Yale College.

Superior Enameled Brick.

NAMELED brick are meeting with increasing favor in this country as a material of utilitity and beauty for buildings and other purposes, and new fields in which they can be used are constantly presenting themselves. They are especially adapted for elevator shafts, waiting rooms of railroad stations, tunnels, markets, laboratories, hospitals, colleges, engine, boiler and dynamo rooms, basements and sub-cellars of stores, warehouses, bank vaults, churches, theatres, bowling alleys, swimming tanks, stables, chemical vats for mills and dye works, arched ceilings, kitchen brick ranges, and sanitaries of public and private buildings.

Enameled brick have won such favor in England that the municipality of London requires that all courts and alleys be built of this material. Basements of stores and warehouses could be much improved by lining the wall spaces with light colored enameled brick, for in their use much valuable space could be saved for show room purposes. Enameled brick are largely used abroad in this way, and foreigners express surprise that our architects have not utilized them, more especially for above use, as they reflect light, are fire-proof, acquire no odor, prevent dampness, and have a very finely

finished surface which is highly ornamental.

We manufacture our enameled brick after the English process of placing the enamel on a fire-brick body, and burning with one firing. Many American manufacturers endeavor to produce enameled brick by using previously burned brick, dipping them in a soft glaze and again firing them. The effect is to produce a very weak and uneven finish, liable to chip and crack, and without the lustre or that fine enameled surface which brick burned with one firing possess, and again, they lack the solidity of a brick manufactured after the process we adopt.

Architects, contractors and builders should note the quality of our enameled brick, as they are equal to the best imported, and pronounced superior by masons who have always used the foreign brick in their work.

We have at all times in stock enameled brick that are more or less imperfect, which we term second or third quality. They are suitable for light or elevator shafts, cellars, vaults, stables, etc., or for any work where they will not bear close inspection. These we will sell at low prices.

We keep constantly in stock all shades mentioned in our catalogue, and

we will produce special colors to order.

The demand for enameled brick is constantly increasing, as all parties using them realize the convenience of obtaining at short notice over the previous vexatious delays through ordering them from abroad, awaiting the arrival of steamers or sailing vessels at the various ports.

FRONT, ENAMEL AND FIRE BRICK WORKS,

FRANK SWEENEY & CO., BRICKLAYERS AND BUILDERS.

129 South 7th Street, Philadelphia, Pa.

PHILADELPHIA, July 14, 1894.

THE SAYRE & FISHER CO.

Gentlemen;—The cream colored enameled brick, trimmed with light and dark brown enamel, which we used to the number of about sixty thousand, for the facing of the interior walls of the engine and dynamo rooms in the power house built by us for the People's Traction Company at Delaware Ave. and Green Street, Philadelphia, have given entire satisfaction to ourselves and to the Traction Company and their engineers, and have been highly praised by every one who has seen them. It has been freely spoken of as being the best job of enameled brick work in Philadelphia.

Very truly yours,

FRANK SWEENEY & CO.

CHARLES MARSH, MASON AND BUILDER.

Newark, New Jersey.

NEWARK, N. J., January 30, 1895.

THE SAVRE & FISHER CO.

Gentlemen:—I have used about twenty thousand of your enameled brick for the new power house building for the Consolidated Traction Company, and can say that out of several samples of brick made in this country, I selected your brick as the best, and they have given entire satisfaction.

Yours respectfully,

CHARLES MARSH.

J. H. DEEVES & BROTHER, MASON BUILDERS, United Charities Building, New York City.

THE SAVEE & FISHER CO.

NEW YORK, August 11, 1894

Gentlemen: -We have used both your front and enameled brick on several buildings, and have found both very satisfactory.

Yours truly,

JOHN H. DEEVES & BROTHER.

FRONT, ENAMEL AND FIRE BRICK WORKS,

CHAS. T. WILLS,

21 East 20th Street, New York.

NEW YORK, January 9, 1895.

THE SAYRE & FISHER CO.

Gentlemen :- I consider that your enameled brick are equal if not superior, to any brick I have ever used.

Very truly yours,

AMOS W. SMITH.

JAMES B. BAKER, ARCHITECT.

874 Broadway.

NEW YORK, January 17, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—I have used a large quantity of your front and enameled brick in the Presbyterian Building, 20th Street and 5th Ave., New York City, and am pleased to say they have given perfect satisfaction and have been delivered promptly.

Yours very truly,

JAMES B. BAKER.

THE MARYLAND LIFE INSURANCE COMPANY,

Baltimore, Md.

BALTIMORE, August 22, 1894.

THE SAVRE & FISHER CO.

Gentlemen:—We take pleasure in saying that the enameled brick furnished by you for light court of this company's building last summer have given us good satisfaction, and the deliveries were made promptly during the progress of building last summer.

Very truly yours.

CLAYTON C. HALL, Actuary.

PAUL G. BOTTICHER, ARCHITECT,

Newark, N. J.

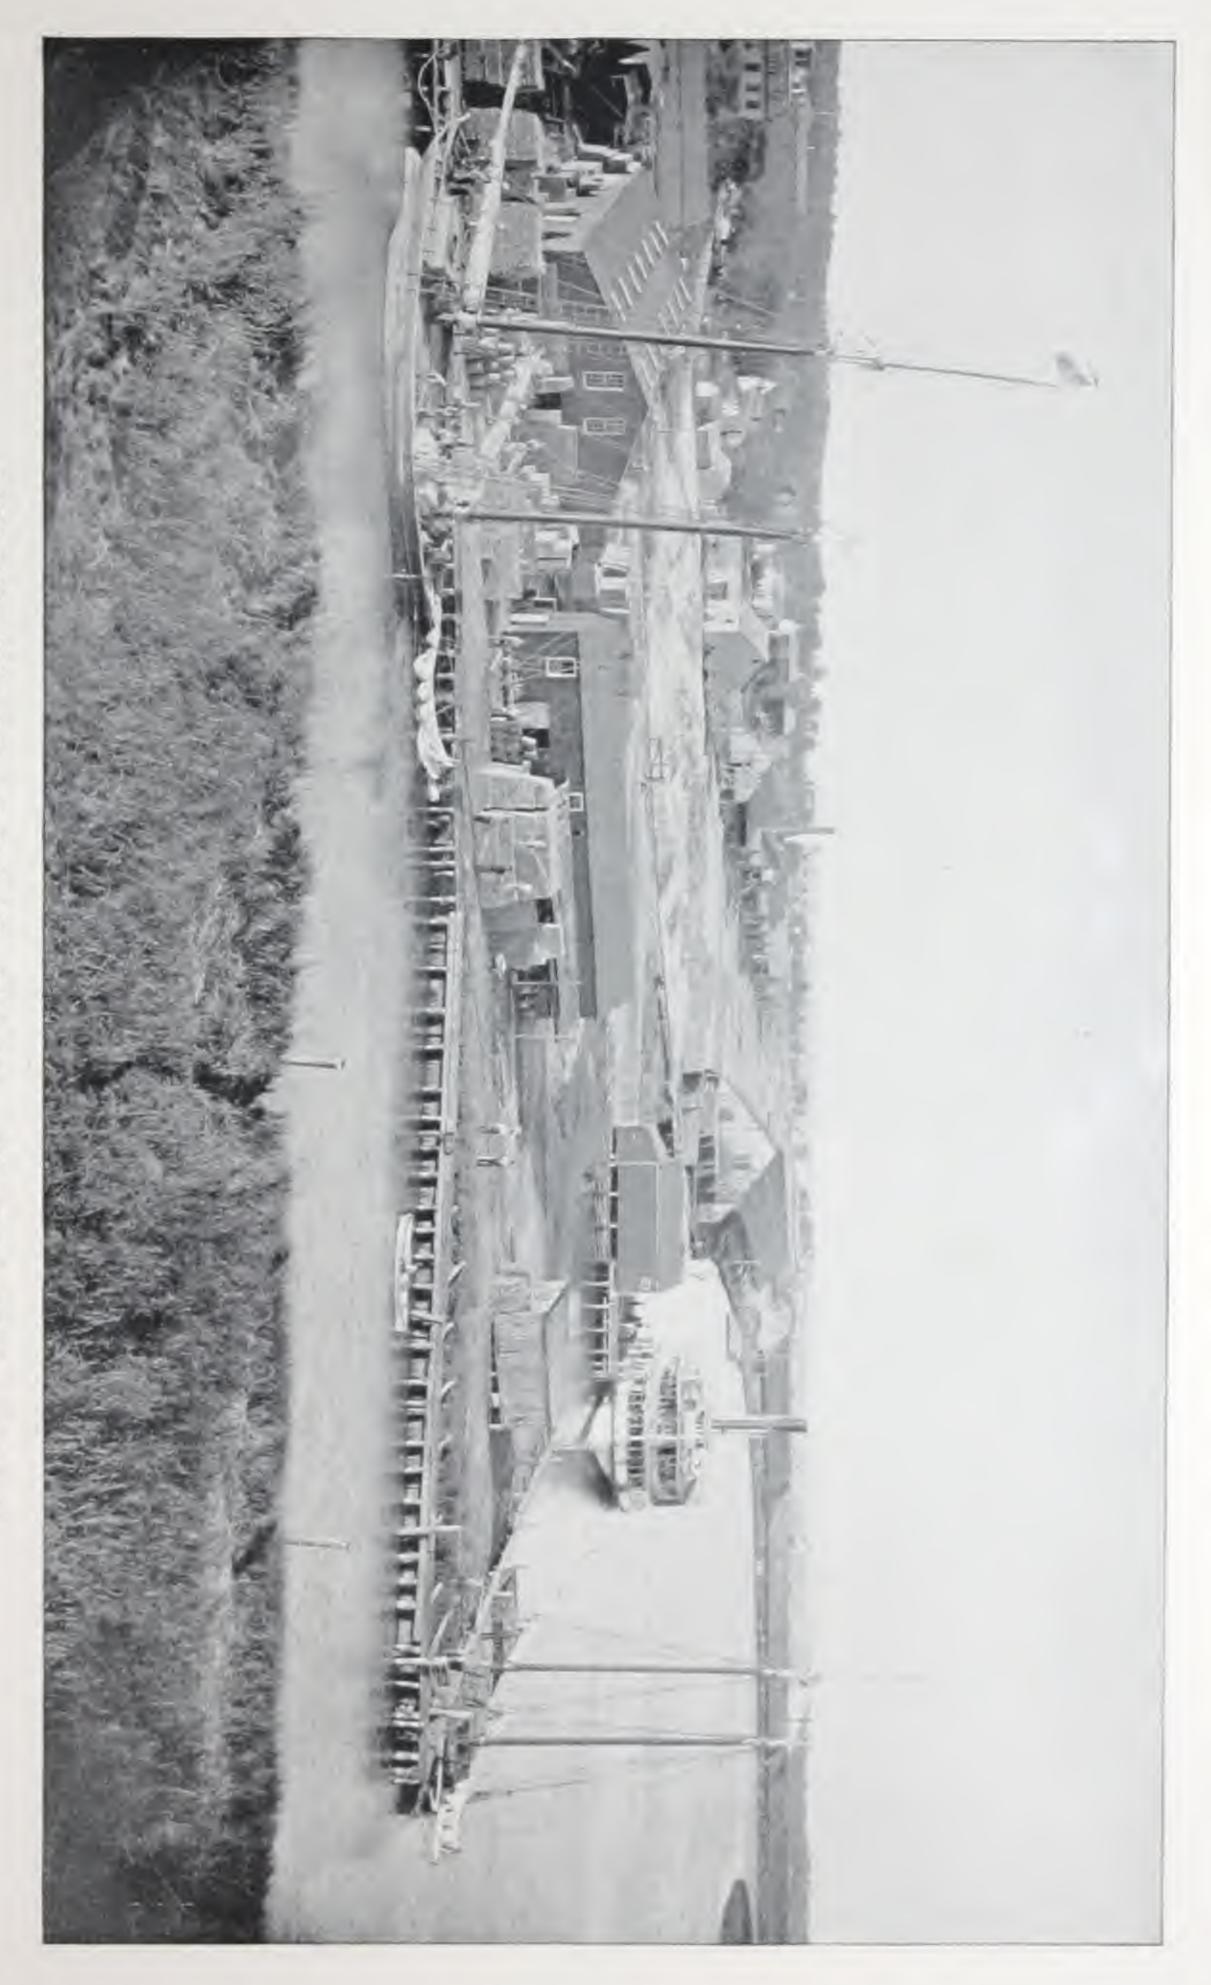

NEWARK, N. J., December 22, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—Having used the enameled brick manufactured by your company in several buildings, it affords me pleasure to bear testimony as to their excellent quality. I have found them to be highly satisfactory in every particular, of good shape, straight and even, with good edges and uniform in the glazing. They are, in my opinion, superior in quality and finish to many of the imported glazed brick.

Very truly yours,

PAUL G. BOTTICHER

Testimonial Letters Regarding Common Building Brick.

JOHN MORTON & SONS, MASON MATERIAL DEALERS,

Carroll Street and Gowanus Canal, Brooklyn, N. Y.

BROOKLYN, N. Y., June 12, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—We have handled a great many millions of your manufacture of building brick during the last thirty years or more, and we can frankly say that they are a first-class article, suitable for all kinds of work where a good, tough, hard brick is required. They are particularly adapted for heavy work, such as storehouses, factories, sewer work, etc., where they are required to stand great weights and strains. They are also a very whole running, good sized brick, making them very economical for owners, builders and contractors to use.

We have furnished large quantities of your brick for the following structures where they gave entire satisfaction: Brooklyn bridge, Brookman stores, Beard's stores and Prentice's stores, of Brooklyn; also, the Oriental Hotel, at Coney Island.

Yours very truly,

JOHN MORTON & SONS.

REILLY & RIDDLE, CONTRACTORS,

Long Island City, L. I.

THE SAYRE & FISHER CO.

LONG ISLAND CITY, N. Y., May 31, 1894.

Gentlemen:—Having learned that you are getting out a catalogue, we wish to say for your brick that they have been known to us for years. We have used them in bridge work and in o her ways, and at this time in sewer construction in this city, are putting in the work about one million and two hundred thousand per month, and for the completion of this contract will require between ten and twelve millions. Your brick fill all the requirements of a very rigid specification, and hold the good opinion of the city's engine rs and inspectors who have severely tested their quality.

Very truly yours,

REILLY & RIDDLE

BRICK SHEDS AT COMMON BRICK YARDS,

SHOWING VIEW AT WEST END OF WORKS.

W. S. HARRISON & CO., BUILDERS.

NEW YORK, January 10, 1895.

THE SAYRE & FISHER CO.

Gentlemen:—We take pleasure in stating to you that after having used a very large amount of your hard brick, we have found them of a superior quality as to hardness, durability and color, and we prefer them to the average North River brick from the fact of their superior hardness. We have also found that the waste in bats is by far less than any others used.

Yours very truly,

W. S. HARRISON & CO.

THE PROVIDENCE GAS COMPANY,

Providence, Rhode Island.

PROVIDENCE, R. I., June 8, 1894.

THE SAYRE & FISHER CO.

Gentlemen:—Relative to the brick we received from you for the construction of a gas holder tank, we can only repeat what we have said before, that they were delivered promptly as promised, ran very uniform in quality, and the waste was much less than in any other brick we have had for a similar purpose.

Yours truly,

A. B. SLATER, Sec'y and Treas.

EAST CLAY BANKS AT COMMON BRICK YARDS.

E. BAILEY & SONS, DEALERS IN LUMBER, HARDWARE, Etc. Patachogue, New York.

PATACHOGUE, N. Y., May 28, 1894.

THE SAYRE & FISHER CO.

Gentlemen: —We are pleased to testify as to the quality, etc., of your brick. We have used a good many of them and found them to be good, hard brick, and to give general satisfaction to our customers.

Yours truly,

E. BAILEY & SONS.

C. EVERETT CLARK, CONTRACTOR AND BUILDER, 166 Devonshire Street.

THE SAYRE & FISHER CO.

BOSTON, August 21, 1894.

Gentlemen ;—I take great pleasure in stating that I have used many of your brick in the construction of important buildings, and I have found them in every way satisfactory.

C. EVERETT CLARK.

GEORGE A. FULLER COMPANY, BUILDING CONSTRUCTION. The Rookery Building.

THE SAVRE & FISHER CO.

CHICAGO, May 28, 1894.

Gentlemen:—We have used some of the product manufactured by The Sayre & Fisher Co., and take pleasure in stating that your brick have proved satisfactory to ourselves and the owners of the various buildings where they have been used.

Yours truly,

GEO, A. FULLER CO.

Common Building Brick.

E desire to call particular attention to our production of so-called common building bricks which for many years have held so wide a reputation for general excellence. Extreme, and we may say, unusual care is exercised in this important department of manufacture. These bricks are of a peculiarly hard, tough and dense texture, qualities rendering them a superior article for all kinds of heavy work, such as foundations and underground work of all kinds, as well as for the construction of manufacturing buildings, mills, storehouses, etc. Their eminent fitness for such purposes, where subjected to enormous pressure, was strikingly illustrated years ago by their selection for use in the great piers and long solid approaches of the New York and Brooklyn Bridge. For sewer work of the best kind they also have proved to be especially well adapted, and for the past forty years and more, without an instance of recorded failure, millions of them have been used for this purpose throughout all this section of the country.

The clay that these bricks are manufactured from has something of the nature of fire-clay in its composition, hence fitting them to a remarkable degree for use where a building brick is required to withstand an unusual degree of heat, such as in smoke stacks, tall chimneys, etc. They will also withstand the action of gases and acids, thus making them a brick well suited for work about chemical and acid works.

Architects, owners, contractors and builders will find that these are very economical bricks to use. This is because of their exceedingly hard and tough nature, a fact which causes them to run very whole, and as a consequence insuring the greatest amount of wall to the thousand brick.

Our immense facilities for manufacturing these brick, one of the largest and most complete plants in the world, and producing five hundred thousand per day, puts us in a position for furnishing large contracts promptly, and of any quality of brick that may be required. The favorable location of our works at deep water on the Raritan River, convenient to New York, enables us to load vessels drawing 14 feet of water at our own dock, and to secure cheap transportation to all points on the line of canals in New York, Pennsylvania, and elsewhere.

We make a specialty of loading large vessels promptly for export trade and points along the coast. Prompt and cheap delivery is assured to New York and vicinity, and also to the receiving wharves of the various lines of railroads. Shipments can also be made by rail direct from our works. Very large quantities of these brick have been used in a great many places for many years, where they have given the best of satisfaction. Please note the preceding testimonials (pages 112 to 116).

Special Shaped Brick.

We manufacture special brick for all purposes; columns, pilasters, piers, bands, cornices and corbels; also arches of all kinds, circular, semi-circular, segmental, straight or flat, and ornamental arches of any desired form. Brick of every shape to conform with architects' drawings.

When ordering moulded or ornamental brick on our list of shapes, do not fail to note accurately the number under each brick, which represents the shape, and where returns are needed to mention either right or left returns as required.

**PLEASE NOTE.—When ordering bricks for arches, be particular to mention or send drawing or sketch showing the width of the opening, and state whether flat or radius, giving face, whether bonded or plain, with depth of the reveal or soffit.

Paving Brick for Various Purposes.

We accumulate, from time to time, very hard pressed brick stained in burning, which we sell very low. These brick are an excellent brick for paving. We would recommend them for the floors of rolling mills, machine shops, gas houses, etc. They will be found preferable to either iron or stone, as they do not become slippery when wet, and are not affected by alternate heat or moisture to which they may be subjected.

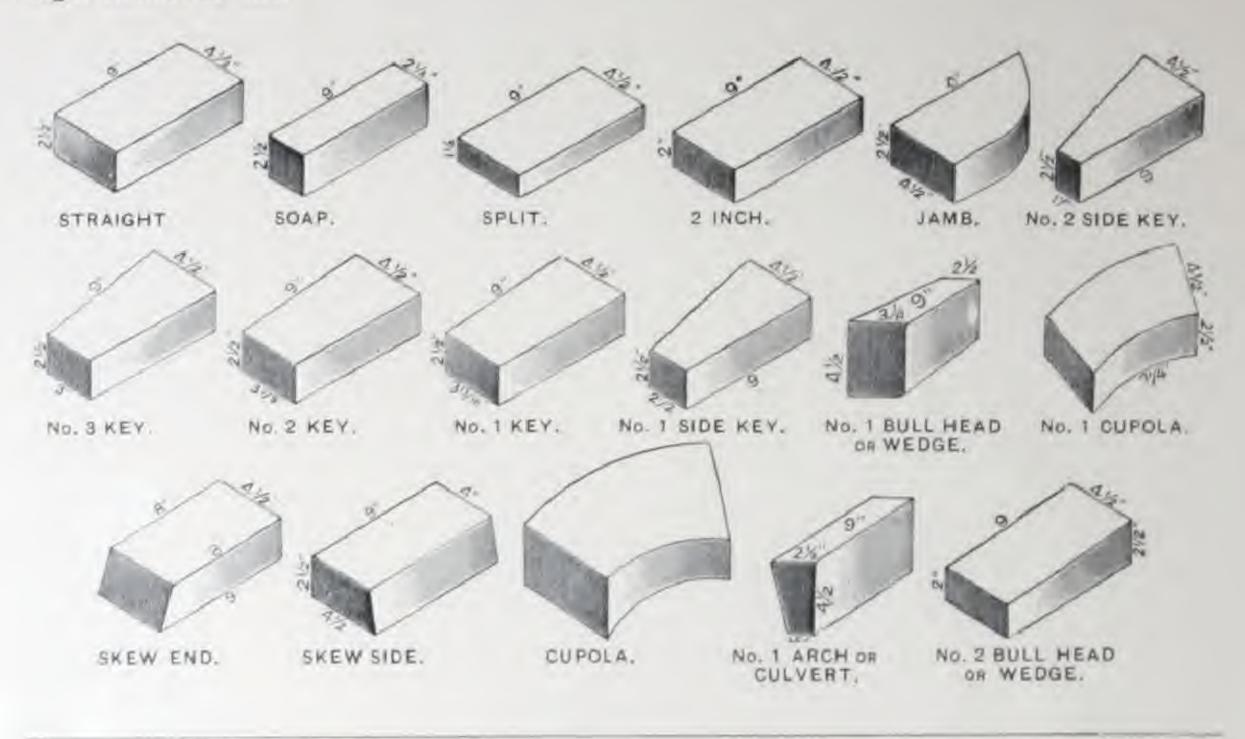

We also manufacture an excellent paving brick for stables. These are made in size 6¼ x 2 x 2, with edges slightly beveled, which tends to give an excellent footing for horses. It will be found when these bricks are laid in Portland cement with close joints, they form a most excellent pavement, and as they are very dense and hard, absorbing very little or no moisture, produce a most sanitary flooring. They have been used in a large stable for Mr. James A. Garland, No. 38 East 40th Street; stable for Mr. Walter Jennings, No. 132 East 39th Street, and the American Express Company's stable, N. W. cerner 48th Street and Lexington Avenue, New York City. The brick used in these stables have given most satisfactory results, and are highly spoken of by the owners.

Shipping Facilities.

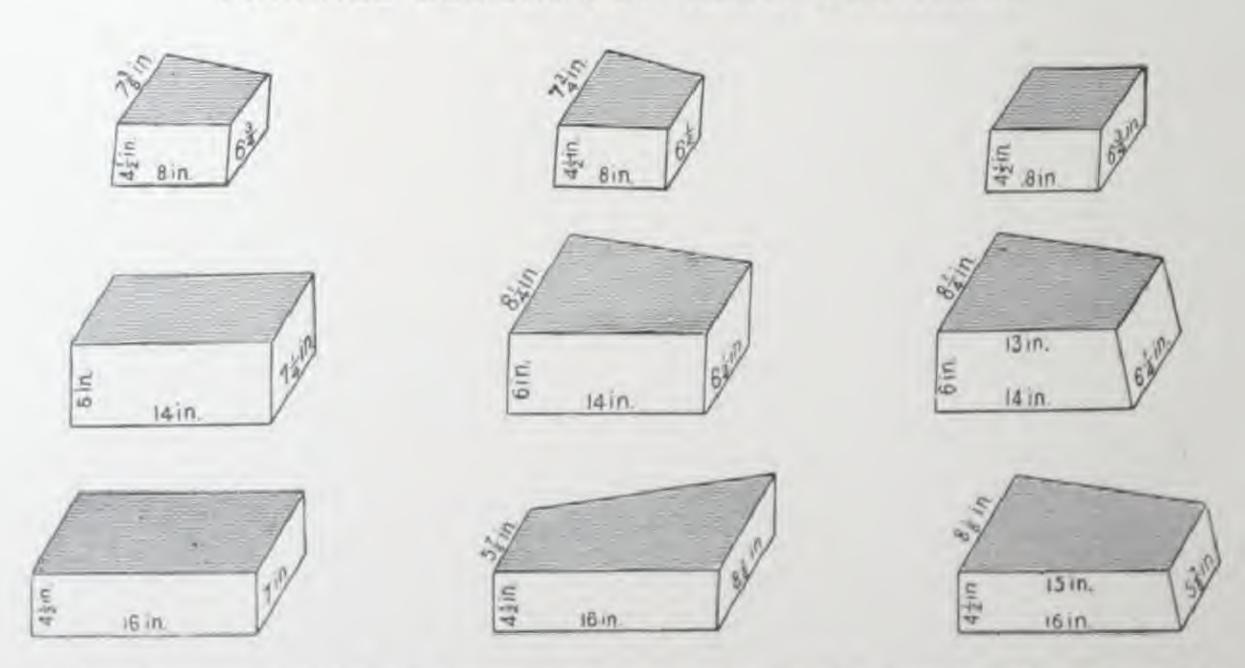

Our superior facilities for shipping promptly to all points by rail, having direct connection with all the prominent railroads, reaching all parts of the United States and Canada, and the location of our works on the Raritan River, enable us to secure cheap transportation of our brick to all points along the coast, as well as on the line of the canals in New York, Pennsylvania and elsewhere. We make a specialty of shipping brick for export, and having fourteen feet of water at our works, enables us to load vessels of large size.

WE MANUFACTURE FIRE BRICK FOR ALL PURPOSES.

The following illustrate some of the ordinary sizes of Fire Brick for Rolling Mills, Blast Furnaces, Foundries, Gas Works, Lime Kilns, Tanneries, Boiler and Grate Setting, Glass Works, Sugar Refineries, Etc.

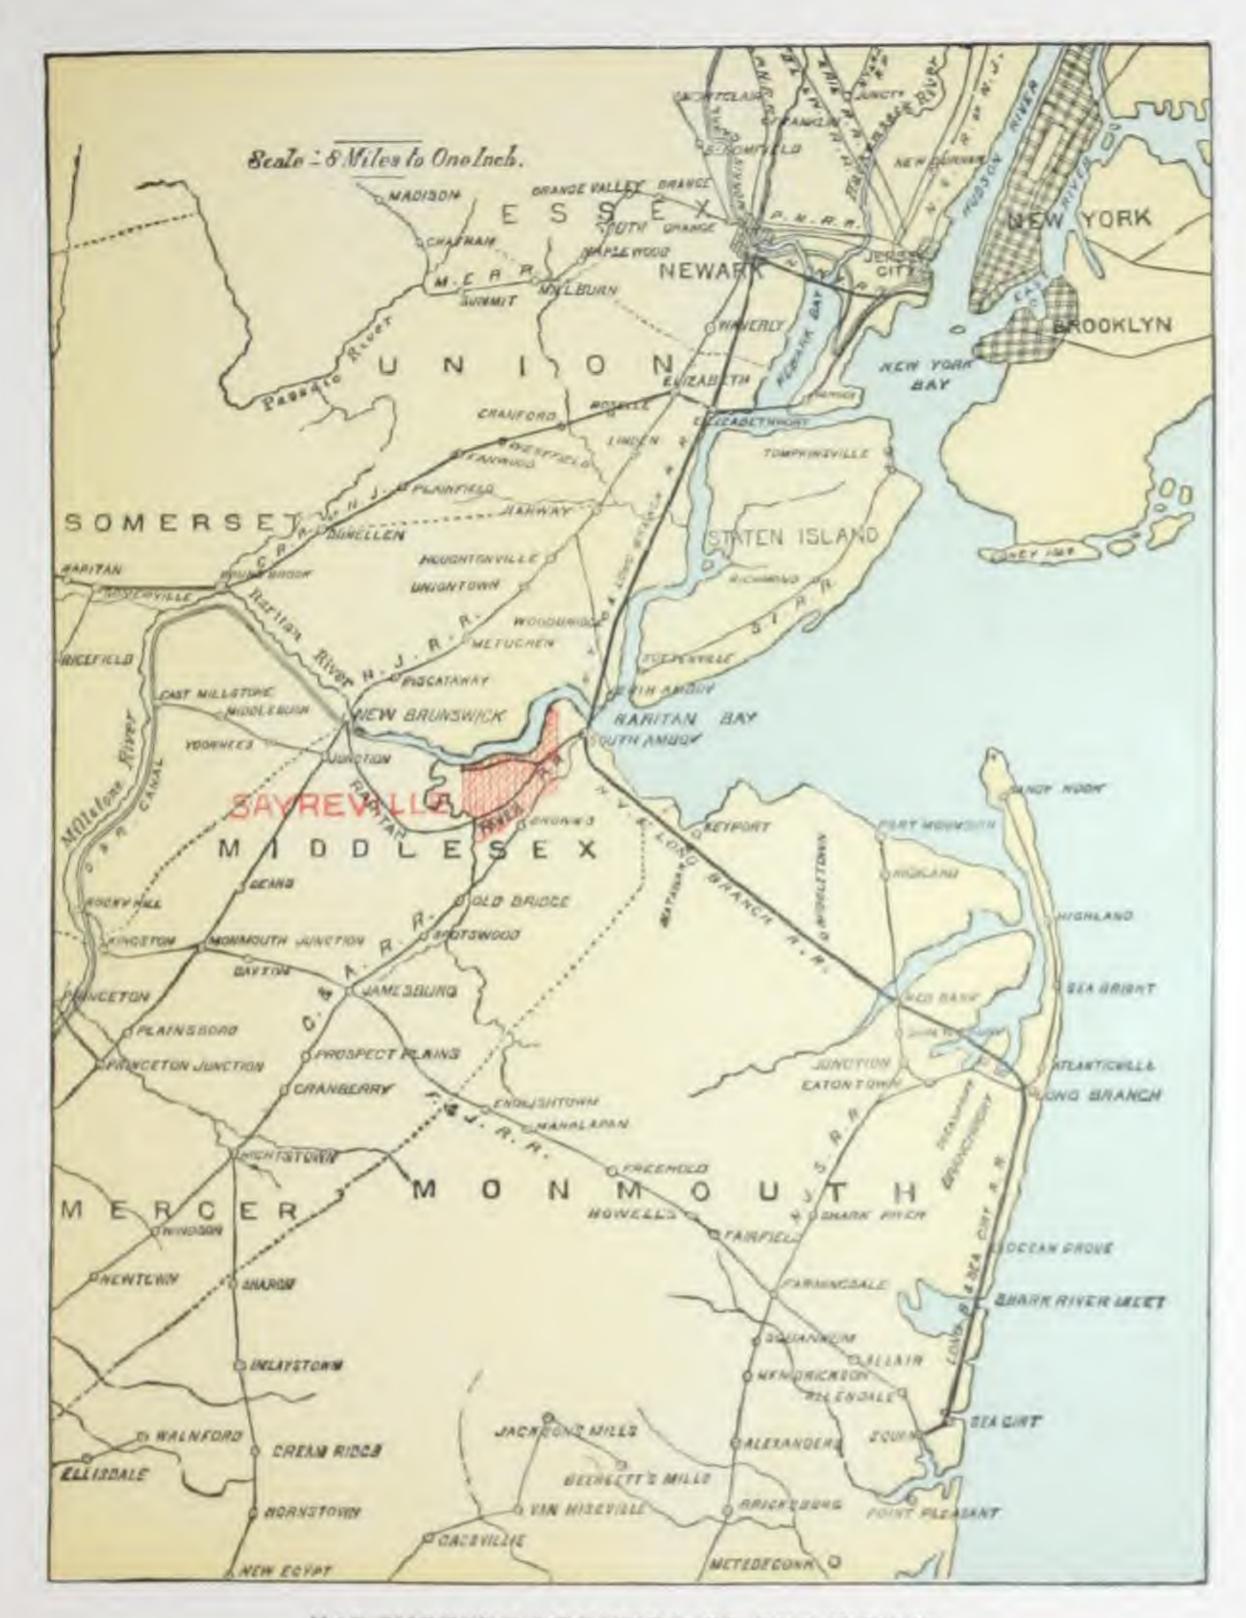

FURNACE BLOCKS FOR BLAST FURNACES.
